

AGEBOBA CLINTON

SOFTWARE ENGINEER | SENIOR WEB DEVELOPER Accra, Ghana

awineyeliyal@gmail.com | <https://github.com> | <https://clintonageboba.netlify.app>

PROFESSIONAL SUMMARY

Strategic and detail-oriented **Senior Web Developer** and **Software Engineer** with a robust background in building scalable full-stack applications and AI-integrated systems. Expert in modern JavaScript frameworks, Python-based backends, and the implementation of Retrieval-Augmented Generation (RAG) pipelines. Combines technical mastery in cloud deployment with a professional foundation in high-level technical writing and education to deliver high-impact digital solutions.

CORE COMPETENCIES

- **Languages:** TypeScript, JavaScript (ES6+), Python, HTML5, CSS3/Tailwind CSS.
 - **Frameworks & Libraries:** React.js, Django, Node.js, shadcn/ui, Redux.
 - **AI & Data:** RAG Pipeline Architecture, LLM Integration, Vector Databases, Data Analysis.
 - **Databases:** PostgreSQL, MongoDB, MySQL
 - **Tools & DevOps:** Git, RSA/AES Encryption, Netlify, Vercel, Render, Docker.
 - **Specialized Skills:** 2D/3D Mathematical Transformations, Computer Graphics Algorithms, Technical Documentation.
-

PROFESSIONAL EXPERIENCE

Senior Web Developer | Freelance / Project Lead *March 2024 – Present*

- Architected and deployed high-performance web applications using **React** and **Django**, ensuring seamless API integration and state management.

- Integrated advanced cryptographic techniques (**RSA/AES**) to secure user authentication and sensitive data handling.
- Managed the end-to-end CI/CD pipeline for multiple production-level projects on **Vercel** and **Render**, optimizing build times and site reliability.

Software Engineering Intern | Health Research Center *July 2025 – October 2025*

- Spearheaded the development and maintenance of the center's internal web platforms, improving data accessibility for researchers.
- Executed complex network infrastructure tasks, including network cable terminations and hardware configuration, ensuring 99.9% uptime.
- Collaborated with cross-functional teams to translate health research requirements into functional technical specifications.

Professional Educator & Technical Writer *Circa 2010 – 2025*

- Leveraged 5 years of experience in education to mentor junior developers and streamline internal documentation processes.
- Produced high-quality technical reports and research papers, maintaining strict adherence to **APA formatting** and formal academic standards.

KEY PROJECTS

Educational RAG Pipeline (Final Year Thesis) *Lead Developer*

- Developed a sophisticated **Retrieval-Augmented Generation** system designed to organize educational content and automate student assessments.
- Implemented vector embeddings to enhance search accuracy within large-scale academic datasets.

Multi-Platform Price Comparison Extension *Full-Stack Developer*

- Engineered a Chrome extension to monitor and compare real-time product pricing across various e-commerce platforms.

- Designed a custom backend to scrape and normalize data, providing users with actionable cost-saving insights.

Computer Graphics Toolkit *Developer*

- Built a library of algorithms for **Bézier curves**, **DDA**, and **Bresenham** rasterization to solve complex 2D and 3D transformation problems.

EDUCATION

Bachelor of Science in Software Engineering *Graduation: 2025 Specialization: AI Integration & Web Systems*

CERTIFICATIONS & SKILLS

- Expertise in **Full-Stack Security** (Encryption & Secure Protocols).
 - **AI-Prompt Engineer**
 - Advanced **Technical Writing** & Academic Research Documentation (6 years experience).
 - Cloud Infrastructure Management (Vercel, Render, Netlify).
-
